Pitch Deck Presentation

In a world of constant digital noise, why is it so hard for students to have a private, productive conversation about their own education?

BSS

Forum

This forum is a high-performance ecosystem deployed on **Vercel**,
powered by **Gemini AI**, and protected by **custom identity logic**.

ANONYMOUS VS. RETRIBUTION

Students often suppress critical feedback due to fear of repercussions. Without a safe, private channel, valuable insights for educational growth are lost to silence.

FRAGMENTED SUPPORT

Social feeds, study resources, and peer guidance are currently scattered. Students waste cognitive energy navigating disjointed platforms to find verified academic help.

Problem Statement

- Non-scripted
- Non-edited
- Real-time

Student

“Honestly we need a way to give feedback to our teachers without the pressure of being identified. Wait..Please actually inplement this.” --Johanna.V.H

Insights

Competitive Analysis

BSS AURA
FORUM

Key Competitors

We are positioned against three tiers: public platforms (Discord/Reddit) that lack safety, institutional tools (Brightspace) that lack anonymity, and generic AI (ChatGPT) that lacks school-specific context.

Market Gap

There is currently a "Trust and Context Gap" where students have no verified-yet-anonymous way to provide feedback to teachers or receive AI tutoring that understands the specific BSS curriculum.

Unique Advantage

Our "Walled Garden" architecture combines institutional identity verification with a context-aware AI Study Buddy and a decentralized feedback module—all integrated into one modular program.

Why We'll Win

By solving the specific "School Life Upgrade" problem with high technical sophistication—including Vercel deployment and API intergration—we offer a professional-grade tool that directly addresses student needs for anonymity and academic synergy.

LIGHTWEIGHT FRONTEND

Plain HTML + vanilla JS, fast rendering.

ASYNC FETCH

Page never freezes while the AI thinks.

FLASK + CONTEXT INJECTION

One if-statement swaps the AI's persona between Study Buddy and BSS Guide

GEMINI 2.5/3.0 API

Called via Python requests; API key secured in Vercel env variables.

VERCEL + SUPABASE

Serverless hosting + cloud Postgres; scalable for crowd users.

USER → FETCH → FLASK → CONTEXT INJECTION → GEMINI → RENDER

Technical-AI Chat

WEBSITE UI

- **HTML/CSS** website design
- BSS themed, simple and easy to navigate
- Posts show the **message** and posted **time and date**

POSTING

- **postMessage()** function
- **fetch() API** to send a post request to an endpoint on server
- **async/await** allows browser to keep UI responsive
- **getMessages()** function reads messages.json
- **Flow**
 - JavaScript automatically requests existing posts from the backend using the Fetch API
 - The backend reads the messages.json file and sends the posts back as JSON data
 - The frontend converts that data into HTML and displays the posts

```
style>
/* DARK THEME VARIABLES */
:root {
  --bg-main: #181717;
  --sidebar-bg: #181717;
  --accent: #ffffff;
  --text-main: #454545;
  --text-muted: #ffffff;
  --card-shadow: 0 4px 6px -1px rgba(170, 170, 170, 0.1), 0 2px 4px -1px rgba(0, 0, 0, 0.06);
}

/* GLOBAL STYLES */
* { box-sizing: border-box; }
body {
  font-family: 'Inter', -apple-system, sans-serif;
  background-color: var(--bg-main);
  margin: 0;
  display: flex;
  height: 100vh;
}

/* SIDEBAR */
nav {
  width: 260px;
  background: var(--sidebar-bg);
  border-right: 1px solid #292929;
  padding: 24px;
  display: flex;
  flex-direction: column;
}
```

Technical-Webpage

STUDENT IDENTITY VERIFIER

- Python code
- Embedded into HTML using a .json file
- Verifies if you are a student

KUDOS YOUR TEACHER

- Uses HTML for website UI
- Follows BSS theme
- For reviewing, it uses JS for posting by utilizing a .JSON file to store the reviews
- **POST-REVIEW FUNCTION**
 - Collects the values of the **Course Name** and **Teacher Name**
 - Saves Values to a .JSON file using a server
 - Fetches the values and inputs them into a postcard to show on the website.

Which teacher gives the MOST infractions?

A. Mrs.Poce | B. Mr. Moffat | C. Mrs. Barnett | D. Mr. Vervick

VERIFY ACCESS

Kudos your Teacher

Submit Review

Technical-Kudos

Design

Dark theme design benefits:

- low-profile interface → access discreetly in public
- significantly reduces eye strain and blue light exposure
- creates a "walled garden" feel that signals a secure environment
- increases energy efficiency

Overview

To Investor

"We aren't just building a forum; we are building the digital infrastructure for student success. BSS Aura is a scalable, secure, and context-aware ecosystem that empowers student voices—now is the time to fund the future of the BSS community."
